SUMMARY

I am a dedicated and intelligent Computer Science and Engineering student, eager to gain practical experience and contribute to impactful projects in the technology sector. With strong skills in programming and problem-solving, I am committed to continuously learning and applying my technical knowledge to solve real-world challenges effectively.

EDUCATION

Sreenivasa Institute of Technology and Management Studies
Bachelor of Technology, Chittoor — CGPA - 7.75 — **2022 - Present**

Narayana Junior College
Intermediate Education, Chittoor — 61% — **2020 - 2022**

ZP High School
Secondary Education, Yadamari — 87% — **2018 – 2020**

PROJECTS

Knowledge-Assisted Diagnosis of Failures in Jupyter ML Environments

Developed a crash analysis and intelligent debugging system for Python-based notebooks in Jupyter Notebook. Analyzed runtime exceptions including dependency conflicts, execution-order errors, and ML API misuse. Used Pandas, NumPy, Matplotlib, and Seaborn for preprocessing, statistical analysis, and visualization of crash patterns. Built a knowledge-assisted diagnostic layer to interpret stack traces and improve notebook reliability.

Cloud-based File System

A serverless solution ensuring scalability and efficiency for cloud-based file management Developed a cloud-based file management system using React.js, Node.js, Express.js, MongoDB, and AWS Enabled users to securely upload, preview, download, and delete files and folders with a responsive UI

CERTIFICATION

Cloud Application Developer - JNTUA Summer Internship — **05/2025 - 07/2025**
Rooman Technologies Pvt., Ltd., Andhra Pradesh
Completed government-sponsored internship in collaboration with IBM, IIT Guwahati, NSDC, NASSCOM, and Wadhwani Foundation.
Training delivered via Rooman Interleap LMS, covering 15 modules and 77 topics, including: Cloud Architecture, REST APIs, Authentication, Serverless Computing, and DevOps Practices

- Managing IAM policies for IT development.
- Implementing MP3 notification system.
- Deploying web servers on AWS EC2.
- Monitoring infrastructure and setting up alerting.
- Deploying scalable Nginx on ECS.
- Developing a simple To-Do List API.

Python Full Stack Intern Ongoing Internship — **11/2025 - 03/2026**
Sri Vensy Technologies Pvt. Ltd., Tirupati
• Python Full Stack development (backend + frontend)
• Offline internship with real-time project exposure (6 hrs/day)
• Practical industry-aligned training

Cloud Computing – NPTEL — **07/2025 - 10/2025**
• 12-week certified course on cloud fundamentals and deployment
• Recommended credits: 3–4

Python Intern — **06/2025 - 06/2025**
UpSkill Campus, Chittoor
Developed a strong foundation in Python programming, including variables, data types, control structures (if/else, loops), functions, and core data structures like lists, tuples, and dictionaries, Gained practical experience with data analysis libraries such as Pandas and NumPy.

SKILLS

AWS, Cloud Computing, AWS Lambda, DynamoDB, HTML, IBM, Java, Python, Robotics, Serverless, Tailwind, Node.js, C, DBMS, SPSS, Tableau, Excel, React.js

LANGUAGES

TAMIL – Native ENGLISH – Intermediate TELUGU – Proficient
